WHY AMERICAN FAMILY CARE URGENT CARE?

More and more people in our neighborhood have figured out how convenient and affordable urgent care centers can be when they need quick medical care. Faster and much less expensive than an emergency room while more accessible than primary care doctors, it's no wonder urgent care is growing.

But is every urgent care center and walk in clinic the same? Not at all.

Part of the Community

All American Family Care Urgent Care centers are locally owned and operated. You'll see our staff helping at community events, schools and all around town – doing all we can to keep our families healthy and happy.

Caring Medical Care

We strive to treat every patient like a friend and family member. Our team is constantly looking for new ways to ensure your visit is fast, comfortable and effective. Our proprietary customer survey tools help ensure we are exceeding expectations through all parts of your visit.

Quality Standards and Training

We've been in the urgent care medical business for over 30 years. During that time we've developed processes that give you the best medical care – quickly and affordably. Because our local teams throughout the country are continually improving systems, training and sharing new ways to delight our patients, we have the highest quality standards in the industry.

Come See the Difference

If you haven't already visited us, ask your friends and neighbors. Check us out on Yelp, Google, Facebook and other review sites. You'll see that our centers consistently rate higher than just about any other local urgent care or medical practice. We are honored to have an average patient satisfaction score of 4.7/5 through our ongoing patient surveys. We would love the opportunity to show you the same level of care.
