

AFC Urgent Care Rapid PCR Labs

How will I get the results?

We offer the following PCR panels with a rapid 1-2 day turn-around. Please set up the AFC patient portal so you can access your results as soon as possible. Call us to set this up at 503-305-6262.

ANDROID

APPLE

What happens if I have an abnormal result?

We will contact you if we need to change or start a medication, order a different test, or discuss the results. Otherwise we will not contact you by phone. Some tests may be slightly abnormal, but if they do not require any change in plan we may not contact you.

AFC Respiratory Panel 25 Targets (nasal swab)

Infection (Germ)	Virus or Bacteria?	What does it cause?	What is the treatment?
Adenovirus	Virus	Common cold	Home care, OTC meds
Bocavirus	Virus	Common cold	Home care, OTC meds
Coronavirus 229E	Virus	Common cold	Home care, OTC meds
Coronavirus HKU1	Virus	Common cold	Home care, OTC meds
Coronavirus NL63	Virus	Common cold	Home care, OTC meds
Coronavirus OC43	Virus	Common cold	Home care, OTC meds
Influenza A	Virus	Influenza ("the flu")	Antiviral meds if < 72 hours
Influenza B	Virus	Influenza ("the flu")	Antiviral meds if < 72 hours
Metapneumovirus A & B	Virus	Common cold	Home care, OTC meds
Parainfluenza virus Type 1	Virus	Common cold	Home care, OTC meds
Parainfluenza virus Type 2	Virus	Common cold	Home care, OTC meds
Parainfluenza virus Type 3	Virus	Common cold	Home care, OTC meds
Parainfluenza virus Type 4	Virus	Common cold	Home care, OTC meds
Parechovirus	Virus	Common cold, stomach flu	Home care, OTC meds
Respiratory Syncytial Virus	Virus	Common cold, bronchiolitis	Home care, OTC meds
Rhinovirus/Enterovirus	Virus	Common cold	Home care, OTC meds
SARS COV 2 (COVID)	Virus	COVID	Antiviral meds if < 5 days
Haemophilus influenzae	Bacteria	Ear and sinus infections, bronchitis, pneumonia	Antibiotics
Bordetella pertussis/holmesii	Bacteria	Whooping cough (infants), pneumonia, bronchitis	Antibiotics
Chlamydomphila pneumoniae	Bacteria	Common cold, walking pneumonia	Antibiotics in some cases
Klebsiella pneumoniae	Bacteria	Pneumonia	Antibiotics
Legionella	Bacteria	Pneumonia	Antibiotics
Moraxella catarrhalis	Bacteria	Ear, eye, sinus infections, bronchitis,, pneumonia	Antibiotics in some cases
Mycoplasma pneumoniae	Bacteria	Common cold, walking pneumonia	Antibiotics in some cases
Streptococcus pneumoniae	Bacteria	Pneumonia	Antibiotics in some cases

AFC Pharyngitis Panel 20 Targets (throat swab)

Infection (Germ)	Virus or Bacteria?	What does it cause?	What is the treatment?
Adenovirus	Virus	Common cold	Home care, OTC meds
Coronavirus 229E	Virus	Common cold	Home care, OTC meds
Coronavirus HKU1	Virus	Common cold	Home care, OTC meds
Coronavirus NL63	Virus	Common cold	Home care, OTC meds
Coronavirus OC43	Virus	Common cold	Home care, OTC meds
Influenza A	Virus	Influenza ("the flu")	Antiviral meds if < 72 hours
Influenza B	Virus	Influenza ("the flu")	Antiviral meds if < 72 hours
PIV-1 (parainfluenza virus)	Virus	Common cold	Home care, OTC meds
PIV-2 (parainfluenza virus)	Virus	Common cold	Home care, OTC meds
PIV-3 (parainfluenza virus)	Virus	Common cold	Home care, OTC meds
PIV-4 (parainfluenza virus)	Virus	Common cold	Home care, OTC meds
Respiratory Syncytial Virus	Virus	Common cold, bronchiolitis	Home care, OTC meds
Rhinovirus/Enterovirus	Virus	Common cold	Home care, OTC meds
SARS COV 2 (COVID)	Virus	COVID	Antiviral meds if < 5 days
Chlamydomphila pneumoniae	Bacteria	Common cold, walking pneumonia	Antibiotics in some cases
Mycoplasma pneumoniae	Bacteria	Common cold, walking pneumonia	Antibiotics in some cases
Streptococcus agalactiae	Bacteria	Pneumonia	Antibiotics in some cases
Streptococcus dysgalactiae	Bacteria	Pharyngitis, pneumonia	Antibiotics in some cases
Streptococcus pneumoniae	Bacteria	Pneumonia	Antibiotics in some cases
Streptococcus pyogenes	Bacteria	Strep throat	Antibiotics

AFC STI Panel 7 Targets (urine or swab)

Infection (Germ)	What does it cause?	What is the treatment?
Chlamydia trachomatis	Discharge, painful urination	Antibiotic pills
Herpes simplex 1	Sores on mouth	Antiviral medications
Herpes simplex 2	Sores on genitals or mouth	Antiviral medications
Neisseria gonorrhoeae	Discharge, painful urination	Antibiotic shot
Trichomonas vaginalis	Discharge, painful urination	Antibiotic pills
Candida albicans	Yeast infection	Antifungal pills, ointment, or suppository

AFC Vaginitis Panel 3 Targets (urine or swab)

Infection (Germ)	What does it cause?	What is the treatment?
Trichomonas vaginalis	Discharge, painful urination	Antibiotic pills
Gardnerella vaginalis	BV (bacterial vaginosis)	Antibiotic pills or suppository
Candida albicans	Yeast infection	Antifungal pills, ointment, or suppository
