WHAT IS URGENT CARE?

Urgent Care is medical care provided by certified medical staff that fills the gap between your primary care physician and the emergency room.

Your primary care physician practices medicine to prevent illnesses, and the emergency room treats illnesses that are life-threatening. Your American Family Care Urgent Care Center treats everything from the common cold to broken bones and everything in between.

When do I use Urgent Care?

Urgent care centers are open seven days a week for extended hours each day. AFC is open when you cannot get an appointment with your primary care physician and we are open when your primary care physicians' office is not. AFC will treat non-life threatening illnesses and injuries at a much lower cost to you and much faster for you than an ER.

How much does Urgent Care Cost?

Most urgent care centers accept insurance and cash payments. AFC accepts most insurance plans, and we have a discounted rate for cash paying patients AND we accept Medicare. Few urgent care centers in the area accept Medicare. The cost at AFC will be about 25% of the cost of an ER visit and it is comparable to a visit to your primary care physician with the exception of higher co-pays. Most insurance co-pays for urgent care are \$50.

How do I find my AFC Urgent Care?

LAKE OSWEGO CLINIC
